## PROFESSIONAL SUMMARY

---

Enthusiastic Full Stack Developer skilled in HTML, CSS, JavaScript, React.js, Node.js, Express.js, PostgreSQL, and MongoDB. Experienced in building dynamic web applications, responsive UI/UX designs, and RESTful APIs using modern frameworks. Quick learner with a collaborative mindset and a passion for sharing technical knowledge.

## TECHNICAL SKILLS

---

**Languages:** Java (OOPs, DSA), C, C++, Python

**Front-End:** HTML, CSS, JavaScript, Bootstrap, React.js, EJS

**Back-End:** Node.js, Express.js

**Database:** PostgreSQL, MongoDB Atlas

**Tools & API Testing:** Git, GitHub, Postman

## PROJECTS

---

**Online Test Platform — MERN Stack (MongoDB, Express, React, Node.js)**      GitHub Repository

- Built a MERN-based Online Test Platform with JWT authentication, timed exams, and real-time scoring.
- Ensured robust error handling and seamless frontend-backend integration for a smooth user experience.

**CDM Restaurant Website — Full Stack Developer**      GitHub Repository

- Developed a complete restaurant web platform with user authentication, menu management, 24-hour sessions, and secure login/signup/logout functionality.
- Integrated PostgreSQL for data persistence and Nodemailer for contact support.

**To-Do List Application**      GitHub Repository

- Built a CRUD-enabled to-do list using Node.js, Express, EJS, and PostgreSQL.
- Enhanced user experience via intuitive task management and efficient data operations.

**Shop Finder — Brewery Locator Web App**      GitHub Repository

- Integrated OpenBreweryDB API with Node.js and Express to provide real-time search and display in a responsive UI.
- Secured application with HTTPS and utilized modern JavaScript for dynamic features.

**Blog Platform (CDM Blog: Express Yourself Freely)**      GitHub Repository

- Engineered a full-stack blog site with Node.js, Express.js, and EJS.
- Emphasized clean UI, performance, and seamless navigation between dynamic content.

**Netflix Clone — Front-End Developer**      GitHub Repository

- Designed a visually accurate, responsive Netflix clone using HTML and CSS.
- Focused on modular layout and cross-device compatibility for better UI/UX proficiency.

## EDUCATION

---

**Lakireddy Bali Reddy College of Engineering, Mylavaram, India**

Bachelor of Technology in Electronics and communication Engineering

Graduated 04/2024

CGPA: 7.66

**Sri Gayatri Junior college, Guntupalli, India**

Intermediate

2018 - 2020

CGPA: 8.78

**S.T MARY'S High School, Mylavaram, India**

SSC

2018

GPA: 9.2

## INTERNSHIPS

---

- Unified Mentor Pvt Ltd.: Full Stack Web Development Intern
- BIST Technologies Pvt. Ltd. & APSICHE: VLSI Design for Testability Program.
- CISCO-AICTE Virtual Internship (2023): Networking Essentials & Packet Tracer
- SRC e-Solutions, Vijayawada: Internet of Things (IoT) Internship.

## CERTIFICATIONS

---

- Tata - GenAI Powered Data Analytics Job Simulation
- The Complete Full-Stack Web Development Bootcamp.
- Soft Skills Course (The Hindu Group, Step by Hindu)
- Career Essentials in Software Development by Microsoft and LinkedIn.
- Career Essentials in Generative AI by Microsoft and LinkedIn.
- Learn Programming with Java - An Interactive Way (Infosys Springboard).
- **Participant:** Gesture Controlled Robot Workshop (JNTU Kakinada).

## STRENGTHS

---

- Team Collaboration
- Time Management
- Strong Communication

## INTERESTS

---

- Building Mini projects
- Photography and Editing
- Exploring Latest Technologies
